ABSTRACT

This state-by-state directory of migrant education summer programs is intended to help educators coordinate services and instruction for migrant families and their children. All states (except Hawaii), Puerto Rico, and the District of Columbia are listed. Each state entry includes the complete mailing address, telephone and fax numbers, and e-mail address for the state-level contact person, as well as individual program site addresses, summer contact persons with telephone number, and opening and closing dates. An alternate contact at the state level for after the close of summer school is given where available. Types of local program sites vary from state to state and include schools, counties, school districts, state educational regions, statewide projects, and other agencies. (SAS)
